

Ramsbury – Assisted Living

Rendition of the Ramsbury Nursing development planned for Pitts Bay Road.

Ramsbury

The Ramsbury Elder Care Community will provide Assisted Living to seniors requiring around the clock medical supervision. The carefully designed building is based on the Eden Projects in the US. Each floor of the two residential floors host twelve hotel-type rooms with special mobility support, along with large communal areas with a kitchen, dining and living areas.

The stable staff is dedicated to each living community. The residents live as a family at Ramsbury. Residents are actively involved in their daily activities and can have use of the kitchen for meal self-preparation and laundry facilities.

The land is being donated for the development by the Heslop family for the purpose of Elder Care. The former family estate is a large site on Pitts Bay Road with ancillary buildings and gardens for walking. There will be parking for visitors and staff, with a one-way drive through system from Pitts Bay to Mill Reach Road. The Ramsbury Elder Care is pending planning permission.

***The target is to raise \$200,000 in early 2022,
to start site preparation and construction financing.***

Ramsbury Elder Care

Model Floor Plan for the Ramsbury Nursing Center submitted by Geoff Parker Architects.
